DOGEREBORN

Reborn dogs in a decentralized state.

## Reborn dogs in a decentralized state.

- Doge (pronounced /'dɒʊdʒ/ DOHJ) is a slang term for "dog" that is primarily associated with pictures of Shiba Inus (nicknamed "Shibe") and internal monologue captions on Tumblr.
- Reborn ( re·born | \ (,)rē-'bòrn \ )  
Definition of reborn  
: born again : REGENERATED, REVIVED

There's one golden rule to remember when it comes to Dogereborn predictions: this is an altcoin that appears to surge, and crash, without rhyme or reason.

The cryptocurrency was started as a joke – and its inherent volatility means that you should never invest more in DOGER than you can afford to lose.
